Metaltech is a complete turnkey Fabrication Company located about 30 minutes south of Seattle. Our company has been in business for over 11 years and we reside in a 36,000 square foot facility utilizing the latest machinery and equipment. We are focused on reducing the cost of sheet metal fabrication, machining and subassemblies to our customers. Our experience in lean manufacturing allows us to increase our proficiency while decreasing our error ratio. We are ISO 9001 certified and will be AS9100 by December 2012. We are a Tier 1 supplier for Boeing DDS and commercial.
